I am happy to know that "YUVA", a socio-economic initiative of Delhi Police with an aim to channelize the power of youth towards economic development, has been attaining success and has become a proud legacy as an employment opportunity to meet the rising aspirations of our youth.

The partnership of "YUVA" with National Skill Development Corporation under the Skill India" initiative of Hon'ble Prime Minister has generated employment opportunities for the under-privileged and marginalized youth. It has also been able to substantially curb deviance and criminal tendencies in the vulnerable youth and attained the objective of engaging such youth in the mainstream, by providing them a conducive ecosystem for their overall personality development on a sustained basis.

It is heartening to note that "YUVA" has today emerged as the flagship community outreach initiative of Delhi Police.

I take this opportunity to congratulate Delhi Police, its training partners, NSDC for their invaluable contribution in making this endeavour a huge success. I hope that this initiative has the potential of changing the way the society perceives its policing services and adds to the overall sense of security and adherence to law.
