**MESSAGE**

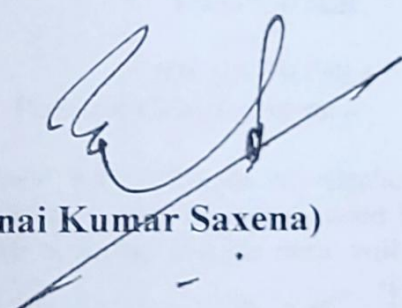

I am happy to learn that the Delhi Tuberculosis Association is launching its 73rd TB Seal Campaign on 28th October, 2022.

The spread of tuberculosis in our country has affected millions of people, particularly from the deprived sections of the society. TB remains one of our major public health concerns and the consistent endeavours of the Delhi Tuberculosis Association for its eradication are indeed praiseworthy.

Government of India has undertaken to eradicate this scourge in the country by 2025 under the aegis of Pradhan Mantri TB Mukh Bharat Abhiyan (PM-TBMBA). We, in Delhi, have resolved to achieve this goal within a year.

The TB Seal campaign has been instrumental in raising funds for promoting voluntary efforts to eradicate tuberculosis from our country and it will be in the fitness of things if the efforts of Tuberculosis Association are synced with those of the PM-TBMBA.

I appreciate the efforts of the Delhi Tuberculosis Association and appeal to all to generously contribute to this noble cause. I wish the 73rd TB Seal Campaign my very best.
