MESSAGE

I am happy to know that the Central Council for Research in Unani Medicine (CCRUM), Ministry of Ayush, Govt. of India is organizing an International Conference on Unani Medicine on 10th & 11th February, 2023 on the occasion of Unani Day.

The theme of the Conference "Unani Medicine for Public Health" aims to highlight the potential of Unani Medicine in maintaining health, eradication of disease and providing healthcare.

I hope that the deliberations amongst the participating experts, academia and students on this occasion would help foster newer dimensions and enrich the practitioners and students of Unani, apart from providing actionable inputs to policy makers.

I am sure that this International Conference will be a huge success and will serve as a platform for sharing valuable works in Unani System of Medicine. I wish the best to the organizers, participants and wish for the success of the Unani Day and the International Conference.

(Vinai Kumar Saxena)
