MESSAGE

I am happy to know that Indian Cancer Society is organizing its Annual Seminar on "**Bridging Innovations and Affordability in Cancer Care**" on 20th September, 2026 and is also bringing out a brochure on this occasion.

Cancer remains a major public health challenge. While medical science has advanced early diagnosis and treatment, these innovations must be affordable and accessible for the common citizens.

The efforts made by the Society in cancer awareness, screening, early detection, patient support and advocacy are praiseworthy. I am confident that deliberations at this Seminar will generate practical solutions for a more equitable healthcare system.

I wish the Indian Cancer Society and all participants all success in their endeavours.

(Sardar Taranjit Singh Sandhu)
