MESSAGE

I am happy to know that the Safety and Quality Forum of The Institution of Engineers (India) in association with the Delhi State Centre is organizing the 23rd International Safety Convention-2026 on the theme "Safe Engineering Practices for a Sustainable Viksit Bharat" on 23-24 October, 2026 at New Delhi and is also bringing out a souvenir on this occasion.

I am informed that the Convention will focus on safety excellence, sustainable development, risk management, technological innovation, competent workforce development and resilient infrastructure.

The efforts made by the Institution in bringing together policymakers, industry experts, researchers, safety professionals, engineers, academicians and students for sharing knowledge, deliberating upon emerging challenges and promoting best practices in engineering safety across various sectors, are praiseworthy.

I wish the Institution continued success in its future endeavours.

(Sardar Taranjit Singh Sandhu)
