MESSAGE

I am happy to know that National Science Centre, a Unit of National Council of Science Museum (NCSM), Ministry of Culture, Government of India is organizing the National Science Drama Festival - an annual creative event for school children, on 27th & 28th December, 2024 and is also bringing out a souvenir on this occasion.

The enhancement of the teaching-learning experience can be significantly achieved by incorporating music, dance, arts, and theatre into the school curriculum. These elements should not merely be viewed as entertaining activities; rather, efforts must be directed towards utilizing India's rich and diverse artistic heritage to convey scientific concepts. Each student possesses a range of emotions that should be expressed, and theatre is instrumental in facilitating such expression. The innovative approach of science drama, integrates art and theatre with social sciences, languages, science, and mathematics, in the process enriching educational content.

I am also happy to know that the NCSM, an autonomous institution under the Ministry of Culture, Government of India, serves as a leading educational resource centre for delivering science education in a non-formal manner, fostering a scientific mindset among the general people and particularly among students.

I convey my best wishes for the success of the National Science Drama Festival and successful publication of the souvenir.

(Vinai Kumar Saxena)
