MESSAGE

I am happy to know that India is hosting 6th Global American Academy of Implant Dentistry & World Congress for Oral Implantology Conference 2024, from 8-10 November, 2024 in Delhi on the theme **"*Shaping the Future: Trends & Insights in Dental Implants from Vision to Reality*"**.

Oral & Dental health have emerged as one of the most significant streams of medicine during the last decade and it is important that the medical fraternity addresses it with the seriousness it deserves.

It is notable that over 1200 delegates with vision to shape the future of the dental implants will attend this global event. I am sure that this will provide ample opportunity for the International and National dental practitioners to exhibit their skill, innovation and knowledge, which will help in the enhancement of Oral Health Care opportunities for the people in India as well as abroad. I also hope that the congregation will look into proactive aspects of Oral and Dental health, especially in light of rising trends in tobacco misuse.

I wish all success to the Conference and hope that it will help improve availability of Oral health Care facilities in India, with focus on reaching to the most deprived, at an affordable price.
